Gregory A. DeMeo

*Director of Career and  
Technical Education*

To Whom It May Concern:

It is with great confidence that I highly recommend Caesare Bibbo to your program of study. Having the pleasure of teaching Caesare in Introduction to Graphic Communication during his sophomore year, Graphic Design One and Digital Illustration during his junior year, and now Graphic Design Two and Digital Illustration in his senior year, I have watched his talent, discipline and concepts advance exponentially.

Just looking within Caesare's portfolio or sketchbook and you will immediately discover his talent and potential. Between many Graphic Design and Illustration classes, Caesare is also involved in the Advanced Art classes, as well as work he creates at home. Examples abound of Caesare's understanding of the concepts in visual art; his sense of composition from the magazine project in Graphic Design—his conceptual ideas and drawing ability from the Comic page or Lord of the Rings Digital Illustration projects—and the combination of these talents in his Graphic Design Two book cover design project for "The Hobbit". However, when speaking with Caesare or looking within his sketchbook, you will immediately sense his strongest artistic trait: *passion*.

Caesare is a young artist eager and hungry to grow, with the discipline and talent to take him to the creative heights of his great potential. It is for these reasons and many more that I highly recommend Caesare Bibbo to your program of study. If you should have any questions regarding Caesare, please do not hesitate to call me at 781. 777. 2642.

Sincerely,

Kevin Keaney
